Eagle-Research books & products are available for purchase:
12:30 - 1:00 & 4:00 - 5:30

Penticton restaurants offer many delightful lunch selections within a 10 minute walk.

Besides superior performance in industrial applications, the 'magic' of this extraordinary gas is in its extreme diversity.

Brown's Gas has healing properties; makes semi-precious stones and neutralizes radioactive waste!!!

HyZor Technology allows you to replace some of your vehicle's fuel with Brown's Gas. That means partially running on Water!

am break/refreshment service will be offered at both The shop and the Event room

George & Tenaj are available to speak personally with potential distributors
Sat 4:30 - 7:00

- Capacitive Battery Charger
- HyCo 2A
- Carburetor Enhancer
- EFIE
- Water As Fuel

- What exactly is Brown's Gas?
- Historical overview of Brown's Gas
- Eagle-Research gets into Brown's Gas

- What's happening in the Industry?
- Learn how Brown's Gas outperforms other industrial gases
- There's **BIG \$\$\$** to be made with ER WaterTorches!

The Eagle-Research edge: Patent-free Technology Development. It makes sense. It makes money. It takes innovation to market in a timely & efficient way.

* For mutual protection, a non-disclosure agreement must be signed & returned to attend the Sat. session.

Both groups will have the opportunity to experience all activities

Build your future on a new idea: innovation, quality, price and the vision you expect from a leader.

When you have a great product, it's hard not to tell the world!
